

Teen Research Programs

Calling all aspiring teen scientists! Learn from UC Berkeley scientists!

Explore a career in science, and conduct research at UC Berkeley in our Teen Research Programs. Our programs offer a captivating opportunity to do science with real experts and a fascinating glimpse into the college experience and a career as a scientist. Students entering 7th through 12th grade can explore coding, biotechnology, engineering, and more. Plus, 10-12 graders can choose a residential option to immerse themselves in the college experience.

Apply Now for Financial Aid

Apply by March 5 for a full scholarship covering up to 100% of the cost of our Teen Research Programs if you need support. The Lawrence advances social justice by centering on equity and broadening participation in science.
