The Lawrence Hall of Science

UNIVERSITY OF CALIFORNIA, BERKELEY

Artificial Intelligence

FREE 5-Day Program, July 8-12, 2024

Dive into the fascinating world of AI with UC Berkeley's BAIR Lab High School Summer Program. Designed for students in grades 10-12, this immersive experience offers hands-on exploration of AI technologies, guided by top-notch Berkeley scientists.

Seize Your Opportunity

This is a unique opportunity designed for and offered to students entering grades 10-12 who have had limited access to STEM mentors and experiences outside of school, who may be the first generation in their family to attend college, and who demonstrate financial need. We especially encourage teens from groups underrepresented in the field of artificial intelligence to apply, including those who identify as: female, Black/African American, Latine, Native American or Alaskan Native, and Native Hawaiian or other Pacific Islander. **This free program is available by application only.**

> " I loved the people. They were really the best part. The faculty, the other people in the program – they were all just such amazing people that I'm going to stay in contact with.
>
> The AI part was really interesting, to see the thinking processes of the programmers and intricate systems of the AI. I definitely appreciate the work and dedication that goes into AI a lot more now!

> " Finding areas of STEM during the camp that I found interesting that I wouldn't have before made me feel like there could be a chance of me pursuing a STEM career.

Explore campus life, visit cutting-edge laboratories, and ignite your passion for innovation! **Apply by April 30th.**
