

The Lawrence Hall of Science

UNIVERSITY OF CALIFORNIA, BERKELEY

Teen Research Program

One-week Programs in June & July

Are you a middle or high school student who is interested in pursuing a degree or a career in STEM?

The Lawrence's Teen Research Programs offer an in-depth research experience in cutting-edge science topics ranging from biotechnology to artificial intelligence! You'll learn from UC Berkeley scientists and explore life on a college campus, visiting world-class laboratories, dining halls, and other campus facilities. Residential add-on available for students who want to immerse themselves in the college experience. **Register by May 15th.**

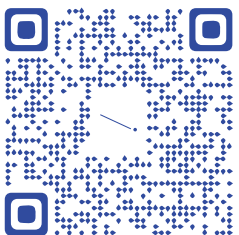

Apply Now for Financial Aid!

The Lawrence advances social justice by centering on equity and broadening participation in science. Apply for a scholarship covering up to 100% of the cost of our Teen Research Programs if you need support. **Financial aid will be awarded on a rolling basis, so get your application in soon.**

“ I really liked the dissections we did, as well as being able to observe and touch real human organs. The trip to the neuro-science lab was a real treat, and I enjoyed it immensely.

“ Finding areas of STEM during the camp that I found interesting that I wouldn't have before made me feel like there could be a chance of me pursuing a STEM career.

“ I loved this programs and was excited to go to it every single day! To be honest, this will probably be one of my most memorable in STEM and in general.
